

# NATIONWIDE DAY OF ACTION

## Wednesday, October 26

Join us on Wednesday, October 26 to show KP we are serious about addressing the staffing crisis.

We will show our union strength and solidarity by wearing stickers and buttons that say “Solve the Staffing Crisis Now.” For our members who work remotely, we will send a virtual background on Monday, October 24 by email.

Need a sticker or a button? Reach out to your union local.

## Alliance to KP: Solve the Staffing Crisis Now!

On September 22, Alliance leaders sent an urgent message to KP CEO Greg Adams calling for a high-level meeting to address the staffing crisis:

- » Health care workers are experiencing exhaustion, depression, and PTSD, and are leaving the workforce in large numbers.
- » Short-staffing and ongoing pandemic-related conditions make the stress even worse for those remaining on the job.
- » Projections show a shortage of many health care professionals in coming years.

Solutions need to include:

- Inflation wage increases
- Retention bonuses
- Addressing experience barriers
- Improving job satisfaction and working conditions
- Increasing the number of people in the health care education pipeline
- And much more...

**Our workforce and our KP members cannot wait any longer.**

Share with us your #StaffingCrisis story.
